

The Plastic Mulch Lifter-Wrapper (PR2500) combines the lifting and wrapping of plastic mulch into ONE EASY PASS. As it splits and lifts the plastic, it rolls the dirt, vines, and trash to the side and wraps the plastic neatly into rolls that are easy to dispose. Whether you are removing early sweet corn plastic in the spring or plastic mulch in the fall, you will save valuable time and greatly increase your efficiency in plastic mulch removal with the PR2500.

## **PLASTIC MULCH LIFTER-WRAPPER**

# PR2500 Plastic Mulch Lifter-Wrapper

The PR2500 is one of the few machines on the market that lifts and wraps spring and fall plastic mulch in one amazingly easy pass. The efficiency you gain in removing your plastic will quickly offset the investment you make in this machine. Can reduce a task that might require 10 to 20 man-hours of labor per acre to as few as 2 man-hours per acre.

## Standard Features

- Heavy-duty powder coated steel frame & components
- Easy-to-operate thumb controls
- Attaches to category 1 or 2 three point hitches
- 2 year limited warranty

## Control

The operator platform provides a complete view of the operation, and the convenient dual motor controls allow the operator to control the tension on each piece of plastic with just their thumb. Operators will quickly find that using the PR2500 is simple and even enjoyable.

## Coulters

Standard single center coulters splits the plastic while the side coulters cut any vines or trash at the edge of the plastic. Optional double coulters adapter kit improves machine function when lifting plastic from beds with multiple plant rows.

## Reels

Two reels wrap both pieces of plastic simultaneously. Under normal conditions, the PR2500 recovers plastic at speeds of 3-5 mph. Removing plastic from the collapsible reels is fast, simple, and requires no bolts, pins, or rods to be removed.

Plastic is easily removed from the reel which handles 2000' of plastic

The PR2500 lifts and wraps from sweet corn up to 18" tall

Shovels help lift up the edges of plastic. Gauge wheels determine the depth of the coulters and shovels.

Optional double coulters adapter kit for multiple row beds

**CROPCARE**

The PR2500, shown here, is making quick work of pulling plastic up and wrapping it onto easy-to-remove rolls.

## CropCare® Commitment, Value, Support

CropCare® is committed to serving you with well-engineered equipment that meets high standards of reliability and value. We take seriously our responsibility as a manufacturer to provide you with relevant equipment that meets your expectations.

We want our equipment to be useful, so we build dependable features that stand the test of time and strive for a balance between simplicity and functionality. We back everything we make with a CropCare® factory warranty to help you to fully utilize your equipment and maximize the value of your investment.

## Our Dealer Network

Our growing and knowledgeable dealer network helps to ensure that CropCare® equipment is supported and serviced promptly. So, whether it's routine maintenance or that unexpected problem, you can count on outstanding dealership support to help you achieve the timely applications of products that are vital to your success.
